120m²

280m²

N/A

We present a good opportunity to have your own home in the center of Los Montesinos. This villa can be totally renovated or the plot can be used to build a new house.

In the entrance we find a big living area, and also there is a storage room. There are three bedrooms and one bathroom. We find a dinning room, an independent kitchen with access to a huge patio where is possible to build a pool. This villa overlooks two streets, so there is in the other side a car access.

Located in the center of the town, you have walking distance shops, bars and everything you need.
